TOOLS

If You Had This Hammer...

...pounding nails would be almost as fun as pounding long-necks. So toss that pathetic brad-tapper into your tool chest and buy yourself a Stiletto Titan. Its titanium head has a magnetized groove that holds the nail while you set it—no more bashed thumbs. It has an ergonomic hickory handle to generate leverage, yet it weighs only 14 ounces, which is especially important if you aim the way we do. \$65. Call (800) 987-1849.
