Log Homes

Lightweight Wrecker.

Looking for a do-it-all demo tool that won't weigh you down? You're unlikely to find anything better — or more expensive — than the titanium *TiBar* from Stiletto Tools. Sold in 12- and 16-inch lengths, it has a hammer head with a side-mounted nail puller and either a cat's paw or crowbar tip. The 16-inch model (right) weighs 2 pounds and costs \$250; the 12-incher (far right) weighs 15 ounces and costs \$170.

Stiletto Tools, 800/987-1849, stilettotools.com.
