### THE \$200 HAMMER

According to Esquire's Rule No. 156, there is no gadget that cannot be made cooler by adding titanium. Well, same goes for tools—namely, this titanium hammer, the Stiletto Tools TiBone. What do you get for your \$194.95? These things don't rust, they've got built-in grooves for holding nails, and they've got titanium's natural shock absorption, meaning no matter how many gazebos you build, your elbow will still love you. We tested the TiBone out recently on a bunch of 16-penny nails and a two-by-four, and we have to say—it's the hammer of the gods. Visit [stiletto-tools.com](http://stiletto-tools.com).
